

Remedial Coaching

The college strives to develop specific competencies of the students that may contribute to their academic and professional success. In this context mentoring of students is immensely important. We have accepted the value of mentoring and the faculty members try to informally mentor the students. Teacher's help students interpret undergraduate programme guidelines and clarify different aspects of curriculum. They constantly encourage students to come forward with their ideas at all stages of development. Students are motivated to expand their skills. Faculty members are approachable and help in advancing the academic and professional goals through sharing guidance, experience and expertise. Students come from an increasingly diverse background, therefore teachers personally interact and try to help them to adapt to changes in a graceful manner. Students start identifying with the teacher.
