

## Student Satisfaction Survey Analysis Report- 2019-2020

The institution conducts Student Satisfaction Survey at the end of every academic year. The survey has covered all the aspects relating to students satisfaction.

The objective of this survey is to measure the student satisfaction level on their experiences with college facilities i.e. infrastructure, physical, student support services, teacher communication, quality of teaching, quality of teaching-learning resources and teaching environment etc.

The student satisfaction survey form was randomly distributed to the students of First year to Final year of UG and PG Courses:

Course	Class	Forms distributed (Randomly)	Successfully completed the survey	Survey Percentage
<b>BALL.B (UG)</b>	I	7	7	<b>86%</b>
	II	7	6	
	III	7	6	
	IV	7	5	
	V	7	5	
<b>LL.B (UG)</b>	I	10	10	
	II	10	8	
	III	10	9	
<b>LL.M (PG)</b>	I	12	11	
	II	12	10	
<b>Total</b>		89	77	

### **Survey Result & Analysis:**

The survey questionnaires mainly depend on following parameters as follows:

#### **1. Student Support Service:**

The survey result indicates that the students strongly agree with students support service provided by the institution which is 89% of overall Score regarding this parameter.

#### **2. Quality of teaching-learning process & teaching quality:**

In this section 90% students were happy with quality of teaching learning process and highly impressed with good communication skill of teachers and their quality of teaching style.

#### **3. Student Satisfaction level on overall institutional performance:**

On the basis of above analysis from students, 91% students responded that they were satisfied with the services and facilities provided by the college.

### **Conclusion:**

According to the survey results, 86% students have actively participated. After analyzing the survey results, we observed that the students were happy with the students support service, quality of teaching & the educational services provided by the college.
