There should be more guidance by the teachers that How should students write law examinations in actual on ground level.

How we can score !

What should be the content

What is the ideal standard pattern of answers of law questions .

What examiner expect from students .

Online as well as Offline, both facilities simultaneously must be provided by the college to the students for attending the lectures.

Explanation should be bilingual for easy to understand.

Theory and practice of law co ordination discussion should be used.

Teachers self notes help to understand the topic...it should be share among the students before teaching

Teaching is done well. No need for any change.

It's honor and pride to be under such knowledgeable faculties who could communicate in the simplest language for students to understand and feel comfortable asking queries.

Broad line of each module needs to be explained in detail, for example "basic definition" of statute mentioned in module (what do you mean by it).Model answer papers of each subject to be provided so as to get idea how to write paper .

- 1) Really good in explaining the subject
- 2) I appreciate the way of presentation
- 3) I like the way sir explain how & when while explaining

The teaching faculties are excellent.

According to me everything is fine,there is nothing i see should be improved as the teachers are already giving their best.

1. The use of ICT tools should be given more importance.
2. Teachers should also discuss career opportunities in class to give the students a clear understanding of the real world.
3. The college should include the extra library charges in the basic fee itself.
4. Why should the students pay an entry fee while coming in the campus premises? If an entry charge is unavoidable, it should be included in the college fee.

Everything was great he even gave us online study material and sufficient time for assignments etc
