

Cultural committee

With the objective to inculcate social and cultural norms in our students, we at NLA strive for organizing social and cultural activities at our place. We conduct various Social/cultural activities which not only help students to identify themselves with the College, but also assist students to develop themselves in a desired field and also improve skills such as organizational, presentation, leadership and interpersonal communication.

Besides intrinsic value, culture also provides few important social and economic benefits. With improved learning and health, increased tolerance, and opportunities to come together with others, culture enhances our quality of life and increases overall well-being for both individuals and communities.

A.K.K. New Law Academy has a very vibrant & active cultural committee.
