

Grievance Redressal

The college has established a grievance redressal cell. The cell deals with the problems of students if any. It works as per the guidelines of the UGC and the university rules. The committee of the cell consists of the members from college faculty, students and activists dealing with social problems. If the bona fides students of the college have any grievance, they can send an email or drop their complaint in the grievance box in the college.

Key features of the Grievance Redressal Committee may include:

1. **Accessibility:** The committee ensures that its members are easily accessible to students, allowing them to submit their grievances through designated channels such as suggestion boxes, or in-person meetings.
2. **Confidentiality:** Confidentiality is maintained throughout the grievance resolution process, ensuring that the identity of the complainant is protected. This encourages students to come forward without fear of reprisal.
3. **Impartiality:** The committee consists of unbiased members who objectively evaluate each grievance and ensure a fair investigation. They strive to provide equitable solutions that address the concerns of all parties involved.
4. **Timely Resolution:** The GRC works diligently to resolve grievances promptly. They establish specific timelines for addressing and resolving complaints, ensuring that students' concerns are not prolonged unnecessarily.
5. **Communication and Feedback:** The committee maintains open lines of communication with students, providing regular updates on the progress of grievance resolution. It also encourages feedback from students to continually improve the grievance redressal process.
