About Maharashtra Cosmopolitan Education Society, Pune

The Maharashtra Cosmopolitan Education Society, Pune (MCES), was established in the year 1948 by Late Adv. Mr. Abdul Kadir Khan and others, with an objective of providing education to the economically, educationally and socially weaker sections of the society. It is both a religious and linguistic minority educational institution as per Article 30(1) of the Constitution of India. It is an educational society registered under the Society's Registration Act of 1860 and a Public Trust registered under the Bombay Public Trust Act 1950. It is also registered under section 12(a) of Income Tax Act 1961 and is exempted u/s 80G of the said Act by the Income Tax Commissioner, Pune.

The Chief Patron of the Conference, Dr. P. A. Inamdar, Chancellor, Dr. P. A. Inamdar University, Pune along with Mrs. Abeda P. Inamdar, President of the Maharashtra Cosmopolitan Education Society, Pune has made remarkable contributions to the field of education. Through their vision, dedication, and relentless efforts, they have played a pivotal role in establishing and nurturing the Maharashtra Cosmopolitan Education Society (M.C.E. Society) in Pune.

Their commitment to inclusive and quality education has led to the development of a strong educational network. Today, the society from a humble beginning of four schools has been transformed into an excellent educational complex of higher, medical, technical and professional academic institutions manages around 40 institutions that offer comprehensive academic programs ranging from Kindergarten to Postgraduate (P.G.) studies, including doctoral (Ph.D.) programs in the field of Arts, Science, Commerce, Computer Science, Education, Law, Pharmacy, Medicine, Dentistry, Management, Architecture, Hospitality, etc. with the modern multi-storeyed buildings designed and constructed to give the best educational atmosphere and hostel complex for boys and girls separately. This wide spectrum of education ensures that students from diverse backgrounds have access to continuous learning opportunities under one umbrella. Their work stands as a significant example of leadership, perseverance, and focus on educational empowerment to create lasting impact in society.

About the National Conference

Artificial Intelligence (AI) is a general-purpose technology that has been in development since 1950s but is now advancing at an unprecedented pace. Today AI systems can synthesise information, reason, plan and execute actions with minimal human supervision in a variety of mediums and contexts and they continue to learn and improve.

AI systems driving decision-making in public administration, judicial processes, and policy implementation, accountability, transparency, and power distribution between states and non-state actors become contentious issues.

Artificial Intelligence is transforming governance, economy, justice delivery and social interactions. While AI offers unprecedented opportunities for innovation and efficiency, it simultaneously raises complex constitutional and legal concerns relating to privacy, equality, accountability, transparency, and fundamental rights.

India is currently navigating the challenge of regulating AI within its Constitutional framework while promoting technological growth. Issues such as algorithmic decision-making, data protection, surveillance, bias in automated systems, and accountability of AI developers require careful legal scrutiny.

The proposed National Conference i.e. “Constitutionalism and Exploring the Legal Framework of Artificial Intelligence in India” aims to provide an interdisciplinary platform for scholars, practitioners, policymakers, and students to examine the Constitutional dimensions of AI regulations in India. The conference will encourage deliberations on how Indian Constitutional Principles can guide responsible AI governance.

Objectives of the Conference

1. To analyze existing Constitutional frameworks and legal doctrines in relation to impact of AI in the field of legal profession and their applicability in the digital era.
2. To explore the adequacy of existing legal frameworks in regulating AI technologies.
3. To evaluate the current Indian legal framework to combat the impact & effects of AI.
4. To promote scholarly dialogue between legal academics, technologists, policymakers and students.
5. To study the judicial response in the implementation of such Constitutional and legal provisions.
6. To provide recommendations to improve upon the present Constitutional and legal framework that deals with the application of AI in the field of legal profession.
7. To identify best practices from comparative Constitutional approaches and give suggestions for AI governance within democratic legal frameworks.
